

QUALITY POLICY

We, at Techno Engineering Services (TES), are committed to delivering excellence in all areas of our business and are passionate about providing the best solutions and services to our clients and other stakeholders. We maintain and enhance our reputation in the marketplace by consistently earning the trust of all stakeholders by implementing the best standards of quality assurances and controls while ensuring client's requirements are met.

TES believes in the accountability for Quality from all our employees, contractors and third parties. We are committed to:

- Continuously striving for improvement in Quality at all times and exceeding customers' expectations;
- Ensure that a customer-focused and process-driven quality management approach is maintained;
- Meet client's specific requirements and promote a culture of continual improvement, responsibility and accountability through the use of an effective quality management system;
- Ensure that quality policy, standards, programs and performance is communicated openly to all employees and made available to all interested parties;
- Increase the motivation and skills of our people to add value to our clients and our businesses, through continual training and development;
- Ensure that analysis, monitoring and controlling, inspection, audit and performance measurement systems are established and implemented on regular basis;

Management has the ultimate responsibility for the implementation and effectiveness of the quality management system and ensuring that the quality management system is communicated, understood, implemented within the organization and to the client satisfaction.

This Policy shall be regularly reviewed to ensure that it is always up to date. The commitments listed are in addition to applicable laws and regulations where we provide our services.
